

Institute for the Theory of Advanced Materials in Information Technology: James R. Chelikowsky (Texas), Yousef Saad and Renata Wentzcovitch (Minnesota), Steven Louie (UC Berkeley) and Efthimios Kaxiras (Harvard) (DMR- 0551195): Workshop on Materials Theory

The Institute for the Theory of Advanced Materials in Information Technology held a workshop on materials theory and related topics on October 20-22, 2005. The workshop was held in the Institute of Computational Engineering and Sciences on the campus of the University of Texas at Austin. Approximately 50 scientists from the US, Europe and Israel attended the meeting. The proceedings were published in *physica status solidi* as indicated on the right.
